

Thermal water in your home!

You are kindly invited to buy a gift set for thermal water at the cafés of Thermana.

The composition of Laško water and the shape of its crystals point to the fact that our thermal water radiates strong life energy, has a positive, stimulating effect on people, and acts beneficially on the mind and the balance between the soul and the body. It produces stimuli that balance and strengthen the organism. Furthermore, our water helps to detoxify the body, reduces body acidity levels, acts as mild laxative, improves cells' biological environment as well as inter-cell communication.

.....

We also recommend you drinking Laško thermal water due to its above-mentioned positive and stimulating properties. Each of you may drink Laško thermal water at your own judgement. Regarding energy value, we recommend drinking up to 2 litres a day. Divide this amount into smaller doses of 2 dl throughout the day, and drink the water in gulps. Before swallowing it, keep it in your mouth a little while.

CHARACTERISTIC BALNEAL PARAMETERS

Cations	mg/l	mmol/l	mmol %
Ammonium NH ₄ ⁺			
Aluminium Al ³⁺			
Calcium Ca ²⁺	53	2,65	49,72
Potassium K ⁺	1,3	0,03	0,56
Lithium Li ⁺			
Magnesium Mg ²⁺	29	2,39	44,84
Manganese Mn ²⁺	0,006	0	0
Sodium Na ⁺	6	0,26	4,88
Strontium Sr ²⁺			
Amount	89,31	5,33	100,00

Anions	mg/l	mmol/l	mmol %
Bromide Br ⁻			
Fluoride F ⁻			
Iodide I ⁻			
Chloride Cl ⁻	4,2	0,12	2,22
Nitrate NO ₃ ⁻	4,4	0,07	1,29
Nitride NO ₂			
Sulphate SO ₄ ²⁻	40	0,83	15,34
Hyd. Carb. HCO ₃ ⁻	268	4,39	81,15
Amount	316,6	5,41	100,00

Thermal water drinking fountain is located in both hotels. Purchase of glasses and bottles with thermal water is possible in Thermana's cafes.

Decades of Laško water's use for therapeutic purposes in balneotherapy have proved the water's healing properties. And now, the latest research has revealed Laško water's suitability for drinking. The research at the Bion Institute has revealed that our water has a biologically outstandingly functioning biofield which is stable, harmonised, cohesive and invigorating. Therefore, it affects you in a positive and encouraging way.

Beneficial ionic structure was confirmed based on chemical analysis, conducted in Canada. The positivity of Laško water's subtle field is confirmed by stable and finely formed crystals, which were made and photographed at the Bion Institute. The interpretation of crystals was based on the findings of Mr Emoto, PhD that there is a correlation between the forms of crystals and the content of information. Our water's crystals are remarkably finely formed and have regular shapes with the hexagonal structure, which is crucial for carrying positive information, said Mr Emoto, PhD.
